HOVEY MAY GET IT.

A Rumor that the Secretary of Treasury Will be Offered Indiana's Governor.

WASHINGTON, Feb. 6.—It is reported among Hoosiers here that the latest from Harrison's kitchen cabinet is to the effect that the president has become very jealous of Governor Hovey's leadership in that state, and especially his pull with the old soldiers. Since the entire power of the administration failed in preventing the complimentary vote to Hovey for senator the president has concluded that the governor is stronger than he gave him credit for being, and in order to get him out of the way in 1892, will appoint him secretary of the treasury.

INDIANAPOLIS, Feb. 6.—An attempt was made by a Sentinel reporter last night to interview the governor on the above dispatch, but he had retired for the night and positively refused to be interviewed on the question. "You may ask Mr. Roberts about it," was his answer to the request for admission, and a deep and prolonged snore emanated from the room as the reporter walked slowly away.

WASHINGTON.

The Proceedings of Both Houses Up to the Hour of Going to Press.

WASHINGTON, Feb. 6.—The senate today agreed to a conference report on the bill providing for an additional associate justice of the supreme court of Arizona.

The naval appropriation bill was reported with amendments, and notice given by Mr. Hale that he would ask for its consideration to-morrow or Monday. A resolution offered by Mr. Hawley, and agreed to, calling on the president for the correspondence in relation to the killing of General Barrundia.

The house to-day passed the senate bill amending the land forfeiture act of September 29, 1890, so that settlers, purchasers and others, under the provisions of the act, may make application to purchase land forfeited thereby from the date of the promulgation by the commissioner.

The postoffice appropiation bill was reported and placed on the calender. The house then went into the committee on the whole on the sundry civil appropriation bill, Mr. Payson in the chair. The pending question was on the decision of the chair on Mr. Dingley's point of order against Mr. Bland's free coinage amendment.

Mr. Payson sustained the point of order on the ground that the amendment was not germane to the paragraph to which it is offered, and that it changed existing laws. Mr. Bland appealed. The decision of the chair was sustained —ayes 134, nays 127.

A DISGRACEFUL ROW.

A Prize Fight at Waynetown Ends in a General Fight.

CRAWFORDSVILLE, Ind., Feb. 6.—The long-expected fight between Ed Cory, of this city, and "Chucky" Fell, of Lafayette, took place at 4 o'clock yesterday morning in Waynetown, in a room adjoining the saloon of Tom Bowers. At midnight fifty persons went to Waynetown on the train, returning yesterday morning at 9:15. Friday Clark was behind Fell, Howard Nicholson was time-keeper and Westfall, of Chicago, referee. The name of the second for Cory is not known, as he was a stranger and disappeared after the fight. Time was called at 4 o'clock, and the two fellows were anxious for the fray. Cory weighed 185 pounds and Fell 165. Fell was knocked out in the fourth round. After this ended Jack O'Neal and Tom Platt fought eight rounds for a pint of whisky, O'Neal winning.

There were also numerous fights, and several persons complain of being robbed. One fellow was knocked down stairs, and another had a portion of a cheek bitten out in a fight. The people of Waynetown are very much excited over the affair, and vow that the guilty parties shall be arrested and punished.

FOREIGN NEWS.

Germany Will Withdraw From Zanzibar--Other News.

BERLIN, Feb. 6.—In his speech defending the African colonial policy of the German government, delivered in the Reichstag yesterday, Chancellor Von Caprivi made the statement that it was the emporer himself who had, on May 2, 1890, instructed the chancellor to bring about an arrangement with Great Britain in regard to colonial affairs. The emperor fully explained all points. The basis of negotiation, he said, centered in East Africa. The interor was to be abandoned, and Zanzibar, where England's claims were paramount, was to be given up on the condition that Great Britain should recognize the claims of Germany on the coast of East Africa.

ROME, Feb. 6.—The report of the formation of a cabinet yesterday was premature. The King issued a decree to-day accepting Signor Crispi's resignation and entrusting to the Marquise Di Rudni the formation of a cabinet. The crisis is becoming more serious. THE INDIAN PROBLEM.

A Mass Meeting Held at Philadelphia to Discuss this Important Question.

PHILADELPHIA, Feb. 6.—A mass meeting for the consideration of the "crisis in Indian affairs," called by the Universal Peace Union, was held at Christ Reformed church, last night. There were present Indian Commissioner Morgan, and with him were the Rev. Oscock, a half-breed, who has charge of the missionary work at the Pine Ridge agency; Louis Shangrew, an interpreter; John Grass, Young-Man-Afraid-of-His Horse; George Words, Clarence Three Stars, and Hollow Horn Bear. Mr. Morgan was the principal speaker. He said they contemplated making some changes in every mode of dealing with the red men. He gave the Indian problem, as it presented itself to him, with the government plan of solution. Then he proceed to answer and deny recent criticisms and charges made against him. In offering his views concerning the proposed solution of the Indian problem, he said that no man or women should enter the Indian service except upon some test as to special fitness. Also that fidelity and capacity should entitle an employe to feel reasonably certain of being retained in office. Indian affairs should be administered by one reasonable head and that head should have such power and help as it absolutely demanded for the proper discharge of his duties and then he should be held to the most rigid accountability." Thus there would be no divided responsibility and no difficulty in location of the blame for any maladministration of Indian affairs. At present the Indian bureau was one of many in the interior department, and it was simply impossible for any man to give proper attention to the workings of all. In conclusion the commissioner said that the Indian problem was in progress of a very happy solution. The end was, he said, that the American Indians shall become as speedily as possible Indian-Americans; that the savage shall become a citizen, and that he shall cease to wander, and become a resident in a fixed habitation.

A CHINESE HORROR.

Fire and Floods Devastate a Country --1,000 Lives Lost.

DENVER Col., Feb. 6.—A San Francisco special to the Rocky Mountain News says: A letter from Shanghai gives the details of terrible floods and famine in northern China. The governor general of Li Hing Chang reports that the people of Schuan suffered terribly by a flood, which destroyed temples, bridges and city walls, in no less than ten districts. In Wen Chuan the loss of life will reach fully 1,000. Immediately following the floods at Pei Chang a fire started and destroyed thirty-five houses. In three other places houses were burned to the number of 200. The suffering among the poor is something terrible. The roads everywhere are difficult of passage and crowds of starving wretches are on their way to Shanghai, and how to deal with them will be an anxious and a difficult problem for those in power to solve.

The fire was gotten under control about 1 o'clock. All the buildings burned, as well as the contents of the car shops, were the property of George Pullman, of Chicago. A number of small houses adjoining the shops were destroyed and many of the inmates had narrow escapes from cremation. It is believed the fire originated from the explosion of a kerosene lamp, which ignited some highly inflammable material in the repair shop. Canadian Reciprocity.

LONDON, Feb. 6.—In an article on the reciprocity question the Chronicle says: "We hope that common sense will prevail and that the time will rapidly approach when America and Canada will see the folly of damming the stream of friendly intercourse. The difference between the proposals of Sir John MacDonald and those of the opposition is only one of degree. It would be rash to predict what the Canadians will adopt." The Chronicle says of Mr. McKinley's frank admission of his motive: "It is amazing that sensible men assent to such arrent nonsense as that wealth in the hands of a few capitalists means a wealthy country."

KOCH'S LYMPH.

Dr. Biewend, a Nephew of the German Discoverer, Tells How it Must be Used.

Dr. H. C. Biewend, formerly of this city, but now of St. Louis, who has been for the past six weeks visiting his uncle, Dr. Koch, at Berlin, and who is on his way back to St. Louis, was interviewed at the home of a relative in this city last evening by a newspaper man.

Dr. Biewend has been under Dr. Koch's immediate instruction and was personally given the following explicit directions for using the famous lymph, which, used in any other way, might produce disastrous results to the patient.

"Before inoculating any patient," says Dr. Biewend, "you must have him under your personal care and observation for from three to six days and take his temperature every three hours, and then you can commence with a minimum dose in phthisis or tuberculor trouble. In a case of lupus you may inject at once. There is absolutely no danger if the lymph has been properly diluted and prepared, but it would be very dangerous in unskilled hands. In my six weeks' stay in Berlin but a single death followed inoculation, and this was an advanced stage of tuberculosis, and an autopsy showed that there was a healthy granulation of the lungs, proving that if the inoculation had been made earlier the patient might have recovered. Dr. Koch always injects under the shoulder blades. The true lymph as authorized by Dr. Koch can be distinguished from counterfeit preparations by the bottle, which is sealed with the initials A. L., standing for Albert Leibertz, who is Dr. Koch's assistant. The bottle itself is two inches high and is about three quarters full of an amber-colored fluid surmounted by a light frothy substance resembling spittle This is exactly five thousand minimum doses if properly diluted. The danger in the use of the lymph lies in its improper preparation. Dr. Koch's personal directions as to the correct dilution of the lymph are to take one syringeful ten milligrams of kochine, the pure preparation, and nine syringefuls of carbol solution. This solution consists of one gramme of carbolic acid to one hundred grammes of distilled water, and of the second solution you take of a 10 per cent. solution one milligram to nine milligrams of carbolic solution, and this dilution is to be made fresh every time it is to be used. In this way there is absolutely do danger to the patients."

The professor requests that the ladies will not send him any more flowers, as the odors have an inclination to produce nausea.

FOR HALF

Your pride cannot afford to sit on the ragged edge of despair—looking the worse for wear—during these two months or more that winter will linger in the lap of spring. If your Overcoat or Suit is rebelling against doing further duty, get another. What's the difference? If you buy now you will have them ready for the "first blasts" next season, besides a heap of comfortable satisfaction right now. If you've the first "shiver of a want" we'd like to have a confab with you.

That line of $15, $14, $13 50 and $12.50 Suits and Overcoats which are on our tables at

$9.75,

Are beauties, and no mistake. To look is to become interested, and then to buy, and you will miss a great treat if you do not take a look at the better grades of $20, $18 50, $17 and $16 50 Suits and Overcoats, all now reduced and put on the sale at

$13.75.

We can FIT you in our ready made Clothing (and we will be as particular in that respect as you). We're not dabbling in Fine Clothing as an experiment; we're past that stage. We have found lots of gentlemen who appreciate the fine in cloth, but don't see any sense in paying "two prices" for it. Wise conclusion they've reached. There isn't a resource under the sun that is not within OUR reach, and we haven't allowed any advantage to stand idle.

Winter came in like a lamb, and is apt to go out like the roaring lion. The sheltering protection of one of our Stormers, Ulsters, or winter-weight fine Overcoats, is what you need, and we have them that will fill the bill.

FRANCIS MURPHY is meeting with great success in his temperance work at New Castle.

MUCH respect will hereafter be shown to the ground hog. He hit it pretty well this year.

THE mayor of Vincennes has ordered all unmuzzled dogs shot. Cruel and heartless mayor!

THE Illinois legislature cannot agree on a man to represent that state in the United States senate.

EVANSVILLE protests against further consideration of the proposition to change the name of that city to Lamasco.

THE names of Minister Robert T. Lincoln, Colonel Clarkson and Comptroller Lacy are the latest mentioned in connection with the vacant cabinet position.

THE business men of Hartford City gave a banquet to the manufacturers, many of whom have recently located there, and there were fifty special guests.

THE legislative committee which comes to this city to-morrow to inspect the Feeble Minded school will be composed of about fifty persons. They should be given a fitting welcome.

MONTGOMERY county farmers are entering into the chicken-raising business on a large scale, and are selling from six hundred to one thousand chickens every year. They claim it pays better than raising cattle for the market.

THE Muncie News some days ago opened a vigorous warfare upon the gaming element, the authorities were stirred into activity, and now the News boasts that the evil has been eradicated so far as professional gambling is concerned.

THE Terre Haute city council has instructed the police board of that city to investigate charges that the police superintendent drank whisky in a saloon late on Sunday night. When the saloon-closing agitation began some weeks ago Davis was considered a leading spirit therein.

CLAUDE MATTHEWS, the secretary of state, is being spoken of as a candidate for governor. One of the democratic politicians of the state says: "This same man will be inaugurated governor two years from now. The same cause that impelled his nomination for secretary last summer will impel his nomination for governor next year. Mark the prediction."

ALTHOUGH defeated for re-election to the United States senate, Mr. Ingalls, of Kansas, does not appear to be in any immediate danger of keeping the wolf from the door. He has declined a handsome offer to take editorial charge of the Detroit Tribune, and has decided to accept $15,000 for thirty lectures to be delivered within twelve months after the adjournment of congress.

THE state legislative joint committees on fees and salaries adopted the bill on that subject which had been prepared by the sub-committee, the main provisions of which were printed in yesterday's edition of this paper. Of the twenty-three members present at the committee meeting, eighteen are credited with having voted in favor of the bill going into effect as soon as it is published. This cannot be considered as an indication of the prevalent feeling among all the members, however. It is growing stronger daily that such a law should not take effect on those now in, or elected to, office and the bill will probably be amended in this respect.

DAY OF RESURRECTION.

The Theme Handled in an Interesting Way by Dr. Wells, the Evangelist, Last Night.

The large audience room of the Second Presbyterian church was crowded almost to its capacity last night to hear the sermon of Dr. Wells, the evangelist, upon the subject, "The Resurrection." It proved to be one of the grandest discourses that he has yet delivered in this city. He took for his text the 28th and 29th verses of the fifth chapter of John: "Marvel not at this; for the hour is coming in which all that are in the graves shall hear His voice and shall come forth; they that have done good unto the resurrection of life, and they that have done evil unto the resurrection of damnation."

The doctrine of the resurrection, he said in substance, is a great mystery. We shall probably never be able in this life to fully understand it, but there are some things about it that God has revealed to us in His word, and it is of these that I shall speak in this discourse. When the resurrection trump shall sound, it will awaken both the righteous and the wicked dead. They will come forth from the graves and the souls and bodies of the resurrected will be united in that great day. What those bodies will be is told us in the Bible.

They will be our identical bodies. The body that our soul dwelt in during life will be the resurrected body. Objections are urged against this proposition, he said, because the body which is laid in the grave decays. Its constituent elements are separated and often find their way to different parts of the earth and assume new form. How, then, is it possible that these resurrected bodies shall be the ones we had in life? The very particles that compose the body, he said, are not necessary to make it the identical body. In life, we are told by the physiologists, every particle of matter in our bodies is changed every seven years. They change from youth to old age and yet it is the same body. We never lose our identity, and so it will be in the resurrection.

They will be raised a spiritual body; I do not know what that means, but I suppose Christ had a spiritual body after His resurrection. He had a mysterious body after He came from the tomb, as was noticed on several occasions by the disciples.

They will be immortal bodies. Death will never have any power over them after they have come from the grave. They will be recognizable bodies, we shall know each other in that other world. Husband will recognize wife, parent will recognize child, brother will recognize sister, friend will recognize friend. But it is often asked if we are raised from the dead with our identical bodies, will the infants come up as infants? I think they will, said Dr. Wells. I believe they will be just what they were when they went down into the grave. We will then have our children back again, but while the bodies remain the same, the souls will be enlarged and grown to maturity. There will be all kinds of people in Heaven, just as there are in this earth, but they will all be redeemed.

The resurrection of the saints and the wicked will differ. The bodies of the righteous will be raised redeemed, but the wicked will remain burdened with the sins that made them unhappy in this life, suffering torment throughout eternity.

The bodies of the righteous will be raised glorified. We will never be weak and tired in heaven. We will never have any physical or mental suffering there. Our bodies will be like unto Christ's body—all glorious—and we shall be happy forever.

The soul will be re-united to the body. This will be true of the righteous, and it will be true of the wicked. Under this branch of his subject the speaker discussed several interesting propositions. Before the resurrection, he said, the soul is a disembodied spirit. The body goes to the grave, where it will remain until the resurrection trump shall sound, but then the soul and the body shall be re-united. So it will be with the wicked in hell. Now it is spiritual suffering, but after the resurrection and judgment it will be spiritual and physical suffering, and this torment will continue throughout an endless eternity. I am often asked, he said, whether the redeemed in heaven will not be distressed over the sufferings of their lost friends in hell. We shall probably feel about the lost just as our Father and Jesus feels. We will feel that their doom is just and right, and we will acquiesce in the punishment that is dealt out to them, just as we do with their sufferings here. I am also often asked about the degrees of happiness in heaven and suffering in hell. I believe, he said, some will wear brighter crowns than others in God's eternal home. Some will be the greatest and some will be the least, some will barely get there, some will be happier than others, but all will be just as happy as they are capable of being. Oh, grow in grace, he said in exhortation, lay up treasures in heaven and make your future just as bright and happy as it can be. With regard to the wicked in hell I believe there will be degrees of suffering. Some from the very nature of their lives must suffer more than others.

The doctor closed with a brilliant word picture of the scenes of resurrection morn. Those who remain on earth will be instantly changed—in the twinkling of an eye—at the second coming of Christ—and there will be millions and millions of them, a much larger number than there is now. All will be taken to the judgment seat of God, there to be judged for the deeds done in the body. His angels will gather them from the four winds. Are you ready? Oh, lead a righteous life. Make your peace with God, for you know not when the day or hour cometh!

To night, at the Second Presbyterian church, Dr. Wells will preach on the subject, "Does Death End All?" This is one of his most interesting sermons and the church will be crowded.

THE LEGISLATURE.

Mr. Hench's bill, providing for the transcribing of shorthand notes of proceedings in cases appealed to the supreme court, was passed. It provides that stenographers shall receive six cents a folio for transcribing notes, and in cases in which the litigant is too poor to pay for this service, it shall be paid for out of the county treasury. The author of the bill explained that this bill was in the interest of justice for those who could not pay the necessary expenses for taking a case to the supreme court, and in addition to this, it provided for a reduction in the cost of transcribing notes from ten cents to six cents per hundred words.

Mr. Carroll's bill, regulating the weights of coal, uniformity of screens, non employment of boys or females, and providing for the better protection of coal miners, was read the third time and passed.

The bill providing that no cases involving less than $100 should be appealed to the supreme court was passed.

Mr. Harrel's gravel road bill, proposing to reconstruct many of the laws of the state on that subject, was defeated.

Mr. Fowler's bill to repeal that section in the statutes which exempts from city taxation tracts of land, in corporate limits, of more than five acres, which are alleged to be used for farming purposes was passed.

Representative McCulloch has introduced bills, the purport of which is to put the control of the state benevolent institutions indirectly in the hands of the governor of the state. It provides that he shall fill all vacancies on the various boards by appointment, instead of having them elected by the legislature, as is now done in many cases, and that such trustees shall serve during the pleasure of the governor, without any specification as to the length of their terms. He is empowered to remove them for cause, and to investigate the institutions, either personally or by deputy, whenever he sees fit. No more than two members of any board are to belong to the same political party. All the officers and employes of these institutions are to be appointed by the representative boards, as now provided, and shall serve at the pleasure of such boards. Mr. McCulloch wants to get this bill through as soon as possible, so that it will effect the institutions, some of whose trustees are to be elected by this legislature, giving the governor the power to appoint them instead.

The question of changing the basis of the apportionment of the school funds has been given a good deal of attention by the legislative educational committees lately. Numerous influences are demanding that the apportionment be based upon the attendance in schools instead of upon the enumeration, which is now the basis. Those who are working for the change assert that in the cities the number of children in the schools is a very much smaller proportion of the number enumerated than is the case in the country districts, and that, therefore, the apportionment based upon enumeration gives cities more than their share of the school moneys of the state.

Mr. Byrd, chairman of the committee on benevolent institutions, asked that his committee might be excused for the rest of the week after 11 o'clock to-day, as it desires to visit the insane hospital at Logansport, and the school for feeble minded at Fort Wayne, which was granted. A motion that when the senate adjourns this morning it shall adjourn until 11 o'clock next Monday morning, was then carried.

Mr. Foley's bill for a board of arbitration was up in the senate yesterday. The bill authorizes the governor to appoint a state board of arbitration and mediation, to consist of three competent persons, not more than two of whom shall belong to the same political party. The court shall have a clerk to perform its clerical duties and an office in the state house. The court will have power to arbitrate differences between employers and employes only when both interests consent for it to do so. In cases of lockouts or strikes, or when other troubles arise concerning payment of wages as fixed by law and under some other circumstances, the court shall have authority to summon witnesses and inquire into causes. Each member of the court shall be paid a salary of $1,000 per annum, and the clerk of the court shall receive a salary of $1,200.

OFFICERS CHOSEN.

Two Prosperous Organizations Elect Them Last Night.

The Mutual Aid and Benefit association held its first meeting last night and organized as follows: President and counsellor, E. V. Emerick; vice president, F. A. Wood; secretary and manager, B. F. Stout; treasurer, J. M. Neufer; medical director, J. Hetrick, M. D.; consulting physician, Carl Schilling, M. D.; directors, T. R. Spalding, J. A. Hetrick, Christian Koenig.

The association has a membership of one hundred and fifty. Its purpose is to supply its members and their families with medicines, attendance and the care of doctors during illness. For this they are assessed small dues which in the aggregate enables the association to care for all its members.

They also have a fund for permanent disability, but no death benefits.

The second annual meeting of the Jefferson Building, Loan and Savings association was held at the Randall hall last evening. The report of the secretary showed the organization to be in a flourishing condition, each share being worth $43 37. The association has 252 members, with 1,116 shares, being one of the strongest and largest in the city.

The following officers were elected: President, Peter G. Hohnhaus; secretary, Otto Herbst; treasurer, George Motz; directors, Chas. Buck, sr., Ferd Weber, A. Hattersley, M. F. Schmetzer, H. B. Monning, J. H. Pranger; auditing committee, Edward Seidel, Byron E. Hattersley, Patrick Ryan, Paul E. Wolf, Charles Broeking.

This association, it is seen, is in very capable hands, and its financial condition is a compliment to the past management.

I have a cousin who is a printer, says ex-Mayor J. B. Loughran, of North Des Moines, Iowa. Some years ago he was employed in this city where they were printing circulars for Chamberlain. He had a deep seated cold and terrible cough, and while setting up copy he made up his mind to buy a bottle. It cured him and that was the first I ever knew of Chamberlain's Cough Remedy. I have been strongly in its favor ever since. My own experience and that of my family convinces me that this remedy is the best in the world. That may be strong language, but that is what I think. The west bound mail and express train No. 7, on the Pennsylvania road, ran into the rear end of a freight train at New Florence yesterday morning. Engineer W. M. Burbank and Fireman C. E. Bell, were badly injured, but will recover. The Adams Express company was the heaviest losers by the wreck, as many valuable packages were destroyed.

The sensational report sent out from Pittsburg, telling of an expected gigantic tie-up of all the lines of the Pennsylvania company west of Pittsburg, involving 30,000 men, unless an answer were given before Monday to the requests of the general grievance committee, proves to be without foundation. General Manager Wood, of the Pennsylvania company, was seen by a United Press reporter last night, and said: "I know nothing whatever of the alleged trouble, and can say the report is utterly groundless. No trouble whatever exists among our employes, who are patiently awaiting the answer of the grievance committee. Yesterday I received a telegram from a member of the committee, saying he had seen the report, and denying any connection with it."

William Moellering Will Erect a Seven Story Building.

At the north-west corner of Calhoun and Brackenridge streets lies a piece of property, 66x150 feet, which was recently purchased of the Fleming estate by William Moellering, the well known brick manufacturer and contractor. If present plans are executed a seven story building will be erected on the ground by the owner, which will be a monument of architecture that will excel in point of beauty and solidity any business block in the city. It is at present calculated to adapt the building to a wholesale house of some kind with office rooms on several of the upper floors. The contemplated building will probably be commenced the coming spring.

A social hop given by the M. F. P. club at G. A. R. hall, 80 Calhoun street, last evening, was largely attended. The dance program consisted of twenty-four numbers. Conley and Casso furnished music. Close, Louis Altevogt, Henry McNutt, Fred Blakie and Emil Stauffer.

George Laible, Joe Kincaide, John Gibson, John Ohneck, Jacob Bowers, Walter Thompson and Joseph Jackson.

At Huntertown, on Wednesday, Wm. Runyan and John Thompson were examining a revolver, and, as usual, none of them knew it was loaded. Runyan was handling the pistol, and pulled the trigger, sending a bullet into Thompson's brain. The man lies unconscious, and the doctors have no hopes of his recovery. Runyan and his victim were good friends, and he is greatly shocked at his awful mistake.

PEN PICTURES

Of Two of Allen County's Representatives in the Legislature.

The biographies of one hundred members of the Indiana legislature are published in yesterday's Indianapolis News and among them are the following of Hon. W. S. Oppenheim and Hon. J. D. Morgan, of this county:

W. S. Oppenheim, democratic representative from Huntington and Allen counties, was born at Bluffton, Ind., June 10, 1857. He attended the state university at Bloomington from 1873 to 1875, and Cornell University, at Ithica, N. Y., from 1875 to 1877. He came to Fort Wayne in the last named year, and has since then practiced law there, now being the junior partner of the firm of Colerick & Oppenheim. This is his second term in the legislature.

J. D. Morgan, state senator from Allen county, was born in VanBuren county, Tennessee, October 21, 1857. He was raised on a farm and educated in the common schools, with the exception of two terms in the Burritt college. He studied medicine under his father, Dr. J. C. Morgan, and attended lectures at and graduated from the Eclectic Medical college of Georgia in 1878. He came to Allen county in 1880, where he has since resided and is practicing his profession.

It is said that a great many Englishmen are visiting this country this season. I asked Jinks what they came for. He said he supposed "to marry soft pated millionaire women, to talk the fellows out of their money, who want to be fooled and to lay in a supply of Dr. Bull's Cough Syrup."

How to Break Up a Severe Cold.

From the Virginia City, Mont., Madisonian.

When we find a medicine we know to possess genuine merit, we consider it a duty, and we take pleasure in telling the public what it is. Such a medicine we found Chamberlain's Cough Remedy. By the use of this syrup we have relieved, in a few hours, severe colds, and in the course of two or three days, entirely broken them up as has several of our friends to whom we have recommended it. It is all it is represented to be by the manufacturers. If you have a cough and want to stop it, Chamberlain's Cough Remedy will do the work. For sale by druggists.

Terre Haute is reveling in an epidemic of measles.

"Mrs. Winslow's Soothing Syrup" has been used over fifty years by millions of mothers for their children while teething, with perfect success. It soothes the child, softens the gums, allays pain, cures wind colic, regulates the bowels and is the best remedy for diarrhoea, whether arising from teething or other causes. For sale by druggists in every part of the world. Be sure and ask for Mrs. Winslow's Soothing Syrup. 25c. a bottle. an27-1y

THE LATEST DISCOVERY.

What the Greatest of All Modern Scientists Has to Say upon the Most Important of All Subjects.

Professor Koch, the great German physician who discovered the microbes which cause cholera, claims to have discovered a way of curing consumption, by vaccination. As more than half of all the deaths which occur every year are caused by consumption if Dr Koch's claim is true, it is the greatest discovery of the nineteenth century. But there seems to be some doubt as to whether it can be made practicable in all cases, while in every case it is certain to be a very expensive cure and one that can only be indulged in by the very wealthiest.

In the course of his remarks upon the subject, however, Professor Koch makes a most wonderful statement, which is as follows: "Alcohol is a food in consumption." He does not say that it is a temporary aid, but an absolute food, sustaining the life, building up the strength, and restoring the health. This is a most important statement and proves beyond question the great value of alcohol in the treatment of disease. It should be remembered, however, that alcohol is never taken in its natural form and that whiskey is the finest manner in which alcohol is ever combined. Even then, it must be pure beyond question, or it injures instead of aids. It is the possession of this quality of purity and its medical power, which has made Duffy's Pure Malt Whiskey so immeasurably superior to any other known whiskey in the world. It has saved the lives of many men and women who were on the downward road to consumption, and it will check the first stages of consumption or prevent pneumonia in every case. Great care should be exercised to secure only the genuine and no dealer, however unscrupulous should be allowed to substitute inferior and perhaps injurious whiskey.

The annual inventory of stock being over, we will open up and place on sale to morrow (Tuesday) morning the first installment of our New goods, comprising White Goods and Embroideries, Black Lawns in Stripes, Plaids, Hemstitched and plain.

Dress Ginghams and Zephyrs in Great variety and excellent designs. Challies, Pine Apple Suitings and Satteens, Woolen Plaids for Spring, Serges and Henriettas, Cashmeres and Flannels, and lots of other desirable Dress Fabrics in Spring Shades.

HOVEY MAY GET IT.

A Rumor that the Secretary of Treasury Will be Offered Indiana's Governor.

WASHINGTON, Feb. 6.—It is reported among Hoosiers here that the latest from Harrison's kitchen cabinet is to the effect that the president has become very jealous of Governor Hovey's leadership in that state, and especially his pull with the old soldiers. Since the entire power of the administration failed in preventing the complimentary vote to Hovey for senator the president has concluded that the governor is stronger than he gave him credit for being, and in order to get him out of the way in 1892, will appoint him secretary of the treasury.

INDIANAPOLIS, Feb. 6.—An attempt was made by a Sentinel reporter last night to interview the governor on the above dispatch, but he had retired for the night and positively refused to be interviewed on the question. "You may ask Mr. Roberts about it," was his answer to the request for admission, and a deep and prolonged snore emanated from the room as the reporter walked slowly away.

WASHINGTON.

The Proceedings of Both Houses Up to the Hour of Going to Press.

WASHINGTON, Feb. 6.—The senate today agreed to a conference report on the bill providing for an additional associate justice of the supreme court of Arizona.

The naval appropriation bill was reported with amendments, and notice given by Mr. Hale that he would ask for its consideration to-morrow or Monday. A resolution offered by Mr. Hawley, and agreed to, calling on the president for the correspondence in relation to the killing of General Barrundia.

The house to-day passed the senate bill amending the land forfeiture act of September 29, 1890, so that settlers, purchasers and others, under the provisions of the act, may make application to purchase land forfeited thereby from the date of the promulgation by the commissioner.

The postoffice appropriation bill was reported and placed on the calender. The house then went into the committee on the whole on the sundry civil appropriation bill, Mr. Payson in the chair. The pending question was on the decision of the chair on Mr. Dingley's point of order against Mr. Bland's free coinage amendment.

Mr. Payson sustained the point of order on the ground that the amendment was not germane to the paragraph to which it is offered, and that it changed existing laws. Mr. Bland appealed. The decision of the chair was sustained —ayes 154, nays 127.

A DISGRACEFUL ROW.

A Prize Fight at Waynetown Ends in a General Fight.

CRAWFORDSVILLE, Ind., Feb. 6.—The long-expected fight between Ed Cory, of this city, and "Chucky" Fell, of Lafayette, took place at 6 o'clock yesterday morning in Waynetown, in a room adjoining the saloon of Tom Bowers. At midnight fifty persons went to Waynetown on the train, returning yesterday morning at 9:15. Friday Clark was behind Fell, Howard Nicholson was time-keeper and Westfall, of Chicago, referee. The name of the second for Cory is not known, as he was a stranger and disappeared after the fight. Time was called at 4 o'clock, and the two fellows were anxious for the fray. Cory weighed 135 pounds and Fell 165. Fell was knocked out in the fourth round. After this ended Jack O'Neal and Tom Platt fought eight rounds for a pint of whisky, O'Neal winning.

There were also numerous fights, and several persons complain of being robbed. One fellow was knocked down stairs, and another had a portion of a cheek bitten out in a fight. The people of Waynetown are very much excited over the affair, and vow that the guilty parties shall be arrested and punished.

FOREIGN NEWS.

Germany Will Withdraw From Zanzibar---Other News.

BERLIN, Feb. 6.—In his speech defending the African colonial policy of the German government, delivered in the Reichstag yesterday, Chancellor Von Caprivi made the statement that it was the emperor himself who had, on May 2, 1890, instructed the chancellor to bring about an arrangement with Great Britain in regard to colonial affairs. The emperor fully explained all points. The basis of negotiation, he said, centered in East Africa. The interest was to be abandoned, and Zanzibar, where England's claims were paramount, was to be given up on the condition that Great Britain should recognize the claims of Germany on the coast of East Africa.

ROME, Feb. 6.—The report of the formation of a cabinet yesterday was premature. The King issued a decree to-day accepting Signor Crispi's resignation and entrusting to the Marquise Di Rudini the formation of a cabinet. The crisis is becoming more serious. THE INDIAN PROBLEM.

A Mass Meeting Held at Philadelphia to Discuss this Important Question.

PHILADELPHIA, Feb. 6.—A mass meeting for the consideration of the "crisis in Indian affairs," called by the Universal Peace Union, was held at Christ Reformed church, last night. There were present Indian Commissioner Morgan, and with him were the Rev. Oscock, a half-breed, who has charge of the missionary work at the Pine Ridge agency; Louis Shaugrew, an interpreter; John Grass, Young-Man-Afraid-of-His-Horse; George Words, Clarence Three Stars, and Hollow Horn Bear. Mr. Morgan was the principal speaker. He said they contemplated making some changes in every mode of dealing with the red men. He gave the Indian problem, as it presented itself to him, with the government plan of solution. Then he proceed to answer and deny recent criticisms and charges made against him. In offering his views concerning the proposed solution of the Indian problem, he said that no man or women should enter the Indian service except upon some test as to special fitness. Also that fidelity and capacity should entitle an employe to feel reasonably certain of being retained in office. Indian affairs should be administered by one reasonable head and that head should have such power and help as it absolutely demanded for the proper discharge of his duties and then he should be held to the most rigid accountability." Thus there would be no divided responsibility and no difficulty in location of the blame for any maladministration of Indian affairs. At present the Indian bureau was one of many in the interior department, and it was simply impossible for any man to give proper attention to the workings of all. In conclusion the commissioner said that the Indian problem was in progress of a very happy solution. The end was, he said, that the American Indians shall become as speedily as possible Indian-Americans; that the savage shall become a citizen, and that he shall cease to wander, and become a resident in a fixed habitation.

A CHINESE HORROR.

Fire and Floods Devastate a Country ---1,000 Lives Lost.

DENVER Col., Feb. 6.—A San Francisco special to the Rocky Mountain News says: A letter from Shanghai gives the details of terrible floods and famine in northern China. The governor general of Li Hing Chang reports that the people of Schuan suffered terribly by a flood, which destroyed temples, bridges and city walls, in no less than ten districts. In Wen Chuan the loss of life will reach fully 1,000. Immediately following the floods at Pei Chang a fire started and destroyed thirty-five houses. In three other places houses were burned to the number of 200. The suffering among the poor is something terrible. The roads everywhere are difficult of passage and crowds of starving wretches are on their way to Shanghai, and how to deal with them will be an anxious and a difficult problem for those in power to solve.

SHOPS BURNED.

Fire Destroys the Pullman Shops at St. Louis---Other Fires.

ST. LOUIS, Feb. 6.—Fire last night destroyed the Pullman car shops and other property to the amount of $250,000. The fire started at 11:45 o'clock in the Pullman shops and spread so rapidly that it was necessary to send in a general alarm and put the entire department at work. The fire was gotten under control about 1 o'clock. All the buildings burned, as well as the contents of the car shops, were the property of George Pullman, of Chicago. A number of small houses adjoining the shops were destroyed and many of the inmates had narrow escapes from cremation. It is believed the fire originated from the explosion of a kerosene lamp, which ignited some highly inflammable material in the repair shop. Canadian Reciprocity.

LONDON, Feb. 6.—In an article on the reciprocity question the Chronicle says: "We hope that common sense will prevail and that the time will rapidly approach when America and Canada will see the folly of damming the stream of friendly intercourse. The difference between the proposals of Sir John MacDonald and those of the opposition is only one of degree. It would be rash to predict what the Canadians will adopt." The Chronicle says of Mr. McKinley's frank admission of his motive: "It is amazing that sensible men assent to such arrant nonsense as that wealth in the hands of a few capitalists means a wealthy country."

KOCH'S LYMPH.

Dr. Biswend, a Nephew of the German Discoverer, Tells How it Must be Used.

Dr. H. C. Biswend, formerly of this city, but now of St. Louis, who has been for the past six weeks visiting his uncle, Dr. Koch, at Berlin, and who is on his way back to St. Louis, was interviewed at the home of a relative in this city last evening by a newspaper man.

Dr. Biswend has been under Dr. Koch's immediate instruction and was personally given the following explicit directions for using the famous lymph, which, used in any other way, might produce disastrous results to the patient.

"Before inoculating any patient," says Dr. Biswend, "you must have him under your personal care and observation for from three to six days and take his temperature every three hours, and then you can commence with a minimum dose in phthisis or tubercular trouble. In a case of lupus you may inject at once. There is absolutely no danger if the lymph has been properly diluted and prepared, but it would be very dangerous in unskilled hands. In my six weeks' stay in Berlin but a single death followed inoculation, and this was an advanced stage of tuberculosis, and an autopsy showed that there was a healthy granulation of the lungs, proving that if the inoculation had been made earlier the patient might have recovered. Dr. Koch always injects under the shoulder blades. The true lymph as authorized by Dr. Koch can be distinguished from counterfeit preparations by the bottle, which is sealed with the initials A. L., standing for Albert Leibertz, who is Dr. Koch's assistant. The bottle itself is two inches high and is about three-quarters full of an amber-colored fluid surmounted by a light frothy substance resembling spittle. This is exactly five thousand minimum doses if properly diluted. The danger in the use of the lymph lies in its improper preparation. Dr. Koch's personal directions as to the correct dilution of the lymph are to take one syringeful ten milligrams of kochine, the pure preparation, and nine syringefuls of carbol solution. This solution consists of one gramme of carbolic acid to one hundred grammes of distilled water, and of the second solution you take of a 10 per cent. solution one milligram to nine milligrams of carbolic solution, and this dilution is to be made fresh every time it is to be used. In this way there is absolutely do danger to the patients."

Is Slow but Sure, Yet He Notes Out --He Smokes and Chats.

Then reaching for his sprinkling can, took a long quaff of artesian straight, and casting a smile over the assemblage announced that if the supply of artesian animalcule only holds out he will succeed in his undertaking. The professor requests that the ladies will not send him any more flowers, as the odors have an inclination to produce nausea.

At a meeting of the trustees of Taylor university last evening, important action was taken to provide for the financial needs of the university. Since Dr. Hemenway has assumed the duties of his office, the work of planning for a broad foundation for a university has been pushed steadily forward. Important changes in the charter have been provided for and the board of trustees enlarged.

The following business men of this city were added to the board of trustees and signified their acceptance of the trust: J. B. White, John H. Bass, E. A. K. Hackett, Geo. W. Pixley and C. S. Bash. The present trustees residing in the city include the above named gentlemen, together with Dr. C. B. Stemen, Rev. A. E. Main, H. C. Hartman, H. C. Schrader, John W. Hayden, Judge A. Zollars, Charles McCulloch, D. N. Foster, Montgomery Hamilton, R. C. Bell and John M. Miller.

The outlook for a university worthy the pride of the city is at once promising and gratifying.

Your pride cannot afford to sit on the ragged edge of despair—looking the worse for wear—during these two months or more that winter will linger in the lap of spring. If your Overcoat or Suit is rebelling against doing further duty, get another. What's the difference? If you buy now you will have them ready for the "first blasts" next season, besides a heap of comfortable satisfaction right now. If you've the first "shiver of a want" we'd like to have a confab with you.

That line of $15, $14, $13.50 and $12.50 Suits and Overcoats which are on our tables at

$13.75.

We can FIT you in our ready made Clothing (and we will be as particular in that respect as you). We're not dabbling in Fine Clothing as an experiment; we're past that stage. We have found lots of gentlemen who appreciate the fine in cloth, but don't see any sense in paying "two prices" for it. Wise conclusion they've reached. There isn't a resource under the sun that is not within OUR reach, and we haven't allowed any advantage to stand idle.

Winter came in like a lamb, and is apt to go out like the roaring lion. The sheltering protection of one of our Stormers, Ulsters, or winter weight fine Overcoats, is what you need, and we have them that will fill the bill.

FRANCIS MURPHY is meeting with great success in his temperance work at New Castle.

MUCH respect will hereafter be shown to the ground hog. He hit it pretty well this year.

THE mayor of Vincennes has ordered all unmuzzled dogs shot. Cruel and heartless mayor!

THE Illinois legislature cannot agree on a man to represent that state in the United States senate.

EVANSVILLE protests against further consideration of the proposition to change the name of that city to Lamasco.

THE names of Minister Robert T. Lincoln, Colonel Clarkson and Comptroller Lacy are the latest mentioned in connection with the vacant cabinet position.

THE business men of Hartford City gave a banquet to the manufacturers, many of whom have recently located there, and there were fifty special guests.

THE legislative committee which comes to this city to-morrow to inspect the Feeble Minded school will be composed of about fifty persons. They should be given a fitting welcome.

MONTGOMERY county farmers are entering into the chicken-raising business on a large scale, and are selling from six hundred to one thousand chickens every year. They claim it pays better than raising cattle for the market.

THE Muncie News some days ago opened a vigorous warfare upon the gaming element, the authorities were stirred into activity, and now the News boasts that the evil has been eradicated so far as professional gambling is concerned.

THE Terre Haute city council has instructed the police board of that city to investigate charges that the police superintendent drank whisky in a saloon late on Sunday night. When the saloon-closing agitation began some weeks ago Davis was considered a leading spirit therein.

CLAUDE MATTHEWS, the secretary of state, is being spoken of as a candidate for governor. One of the democratic politicians of the state says: "This same man will be inaugurated governor two years from now. The same cause that impelled his nomination for secretary last summer will impel his nomination for governor next year. Mark the prediction."

ALTHOUGH defeated for re-election to the United States senate, Mr. Ingalls, of Kansas, does not appear to be in any immediate danger of keeping the wolf from the door. He has declined a handsome offer to take editorial charge of the Detroit Tribune, and has decided to accept $15,000 for thirty lectures to be delivered within twelve months after the adjournment of congress.

THE state legislative joint committees on fees and salaries adopted the bill on that subject which had been prepared by the sub-committee, the main provisions of which were printed in yesterday's edition of this paper. Of the twenty-three members present at the committee meeting, eighteen are credited with having voted in favor of the bill going into effect as soon as it is published. This cannot be considered as an indication of the prevalent feeling among all the members, however. It is growing stronger daily that such a law should not take effect on those now in, or elected to, office and the bill will probably be amended in this respect.

DAY OF RESURRECTION.

The Theme Handled in an Interesting Way by Dr. Wells, the Evangelist, Last Night.

The large audience room of the Second Presbyterian church was crowded almost to its capacity last night to hear the sermon of Dr. Wells, the evangelist, upon the subject, "The Resurrection." It proved to be one of the grandest discourses that he has yet delivered in this city. He took for his text the 28th and 29th verses of the fifth chapter of John: "Marvel not at this; for the hour is coming in which all that are in the graves shall hear His voice and shall come forth; they that have done good unto the resurrection of life, and they that have done evil unto the resurrection of damnation."

The doctrine of the resurrection, he said in substance, is a great mystery. We shall probably never be able in this life to fully understand it, but there are some things about it that God has revealed to us in His word, and it is of these that I shall speak in this discourse. When the resurrection trump shall sound, it will awaken both the righteous and the wick d dead. They will come forth from the graves and the souls and bodies of the resurrected will be united in that great day. What those bodies will be is told us in the Bible.

They will be our identical bodies. The body that our soul dwelt in during life will be the resurrected body. Objections are urged against this proposition, he said, because the body which is laid in the grave decays. Its constituent elements are separated and often find their way to different parts of the earth and assume new form. How, then, is it possible that these resurrected bodies shall be the ones we had in life? The very particles that compose the body, he said, are not necessary to make it the identical body. In life, we are told by the physiologists, every particle of matter in our bodies is changed every seven years. They change from youth to old age and yet it is the same body. We never lose our identity, and so it will be in the resurrection.

They will be raised a spiritual body; I do not know what that means, but I suppose Christ had a spiritual body after His resurrection. He had a mysterious body after He came from the tomb, as was noticed on several occasions by the disciples.

They will be immortal bodies. Death will never have any power over them after they have come from the grave. They will be recognizable bodies, we shall know each other in that other world. Husband will recognize wife, parent will recognize child, brother will recognize sister, friend will recognize friend. But it is often asked if we are raised from the dead with our identical bodies, will the infants come up as infants? I think they will, said Dr. Wells. I believe they will be just what they were when they went down into the grave. We will then have our children back again, but while the bodies remain the same, the souls will be enlarged and grown to maturity. There will be all kinds of people in Heaven, just as there are in this earth, but they will all be redeemed.

The resurrection of the saints and the wicked will differ. The bodies of the righteous will be raised redeemed, but the wicked will remain burdened with the sins that made them unhappy in this life, suffering torment throughout eternity.

The bodies of the righteous will be raised glorified. We will never be weak and tired in heaven. We will never have any physical or mental suffering there. Our bodies will be like unto Christ's body—all glorious—and we shall be happy forever.

The soul will be re-united to the body. This will be true of the righteous, and it will be true of the wicked. Under this branch of his subject the speaker discussed several interesting propositions. Before the resurrection, he said, the soul is a disembodied spirit. The body goes to the grave, where it will remain until the resurrection trump shall sound, but then the soul and the body shall be re-united. So it will be with the wicked in hell. Now it is spiritual suffering, but after the resurrection and judgment it will be spiritual and physical suffering, and this torment will continue throughout an endless eternity. I am often asked, he said, whether the redeemed in heaven will not be distressed over the sufferings of their lost friends in hell. We shall probably feel about the lost just as our Father and Jesus feels. We will feel that their doom is just and right, and we will acquiesce in the punishment that is dealt out to them, just as we do with their sufferings here. I am also often asked about the degrees of happiness in heaven and suffering in hell. I believe, he said, some will wear brighter crowns than others in God's eternal home. Some will be the greatest and some will be the least, some will barely get there, some will be happier than others, but all will be just as happy as they are capable of being. Oh, grow in grace, he said in exhortation, lay up treasures in heaven and make your future just as bright and happy as it can be. With regard to the wicked in hell I believe there will be degrees of suffering. Some from the very nature of their lives must suffer more than others.

The doctor closed with a brilliant word picture of the scenes of resurrection morn. Those who remain on earth will be instantly changed—in the twinkling of an eye—at the second coming of Christ—and there will be millions and millions of them, a much larger number than there is now. All will be taken to the judgment seat of God, there to be judged for the deeds done in the body. His angels will gather them from the four winds. Are you ready? Oh, lead a righteous life. Make your peace with God, for you know not when the day or hour cometh!

To night, at the Second Presbyterian church, Dr. Wells will preach on the subject, "Does Death End All?" This is one of his most interesting sermons and the church will be crowded.

THE LEGISLATURE.

Mr. Hench's bill, providing for the transcribing of shorthand notes of proceedings in cases appealed to the supreme court, was passed. It provides that stenographers shall receive six cents a folio for transcribing notes, and in cases in which the litigant is too poor to pay for this service, it shall be paid for out of the county treasury. The author of the bill explained that this bill was in the interest of justice for those who could not pay the necessary expenses for taking a case to the supreme court, and in addition to this, it provided for a reduction in the cost of transcribing notes from ten cents to six cents per hundred words.

Mr. Carroll's bill, regulating the weights of coal, uniformity of screens, non-employment of boys or females, and providing for the better protection of coal miners, was read the third time and passed.

The bill providing that no cases involving less than $100 should be appealed to the supreme court was passed.

Mr. Harrel's gravel road bill, proposing to reconstruct many of the laws of the state on that subject, was defeated.

Mr. Fowler's bill to repeal that section in the statutes which exempts from city taxation tracts of land, in corporate limits, of more than five acres, which are alleged to be used for farming purposes was passed.

Representative McCulloch has introduced bills, the purport of which is to put the control of the state benevolent institutions indirectly in the hands of the governor of the state. It provides that he shall fill all vacancies on the various boards by appointment, instead of having them elected by the legislature, as is now done in many cases, and that such trustees shall serve during the pleasure of the governor, without any specification as to the length of their terms. He is empowered to remove them for cause, and to investigate the institutions, either personally or by deputy, whenever he sees fit. No more than two members of any board are to belong to the same political party. All the officers and employes of these institutions are to be appointed by the representative boards, as now provided, and shall serve at the pleasure of such boards. Mr. McCulloch wants to get this bill through as soon as possible, so that it will effect the institutions, some of whose trustees are to be elected by this legislature, giving the governor the power to appoint them instead.

The question of changing the basis of the apportionment of the school funds has been given a good deal of attention by the legislative educational committees lately. Numerous influences are demanding that the apportionment be based upon the attendance in schools instead of upon the enumeration, which is now the basis. Those who are working for the change assert that in the cities the number of children in the schools is a very much smaller proportion of the number enumerated than is the case in the country districts, and that, therefore, the apportionment based upon enumeration gives cities more than their share of the school moneys of the state.

Mr. Byrd, chairman of the committee on benevolent institutions, asked that his committee might be excused for the rest of the week after 11 o'clock to-day, as it desires to visit the insane hospital at Logansport, and the school for feeble minded at Fort Wayne, which was granted. A motion that when the senate adjourns this morning it shall adjourn until 11 o'clock next Monday morning, was then carried.

Mr. Foley's bill for a board of arbitration was up in the senate yesterday. The bill authorizes the governor to appoint a state board of arbitration and mediation, to consist of three competent persons, not more than two of whom shall belong to the same political party. The court shall have a clerk to perform its clerical duties and an office in the state house. The court will have power to arbitrate differences between employers and employes only when both interests consent for it to do so. In cases of lockouts or strikes, or when other troubles arise concerning payment of wages as fixed by law and under some other circumstances, the court shall have authority to summon witnesses and inquire into causes. Each member of the court shall be paid a salary of $1,000 per annum, and the clerk of the court shall receive a salary of $1,200.

OFFICERS CHOSEN.

Two Prosperous Organizations Elect Them Last Night.

The Mutual Aid and Benefit association held its first meeting last night and organized as follows: President and counsellor, E. V. Emerick; vice president, F. A. Wood; secretary and manager, B. F. Stout; treasurer, J. M. Neufer; medical director, J. Hetrick, M. D.; consulting physician, Carl Schilling, M. D.; directors, T. R. Spalding, J. A. Hetrick, Christian Koenig.

The association has a membership of one hundred and fifty. Its purpose is to supply its members and their families with medicines, attendance and the care of doctors during illness. For this they are assessed small dues which in the aggregate enables the association to care for all its members.

They also have a fund for permanent disability, but no death benefits.

The second annual meeting of the Jefferson Building, Loan and Savings association was held at the Randall hall last evening. The report of the secretary showed the organization to be in a flourishing condition, each share being worth $43 37. The association has 252 members, with 1,116 shares, being one of the strongest and largest in the city.

The following officers were elected: President, Peter G. Hohnhaus; secretary, Otto Herbst; treasurer, George Motz; directors, Chas. Buck, sr., Ferd Weber, A. Hattersley, M. F. Schmetzer, H. B. Monning, J. H. Pranger; auditing committee, Edward Seidel, Byron E. Hattersley, Patrick Ryan, Paul E. Wolf, Charles Brooking.

This association, it is seen, is in very capable hands, and its financial condition is a compliment to the past management.

I have a cousin who is a printer, says ex-Mayor J. B. Loughran, of North Des Moines, Iowa. Some years ago he was employed in this city where they were printing circulars for Chamberlain. He had a deep seated cold and terrible cough, and while setting up copy he made up his mind to buy a bottle. It cured him and that was the first I ever knew of Chamberlain's Cough Remedy. I have been strongly in its favor ever since. My own experience and that of my family convinces me that this remedy is the best in the world. That may be strong language, but that is what I think. A special meeting of the American Association of General Passenger and Ticket agents will be held in Chicago at the Grand Pacific hotel on February 17, at 11 a. m. It is supposed that this meeting will take the place of the regular meeting, which was to have been held in San Francisco on March 17.

The west bound mail and express train No. 7, on the Pennsylvania road, ran into the rear end of a freight train at New Florence yesterday morning. Engineer W. M. Burbank and Fireman C. E. Ball, were badly injured, but will recover. The Adams Express company was the heaviest losers by the wreck, as many valuable packages were destroyed.

The sensational report sent out from Pittsburg, telling of an expected gigantic tie-up of all the lines of the Pennsylvania company west of Pittsburg, involving 30,000 men, unless an answer were given before Monday to the requests of the general grievance committee, proves to be without foundation. General Manager Wood, of the Pennsylvania company, was seen by a United Press reporter last night, and said: "I know nothing whatever of the alleged trouble, and can say the report is utterly groundless. No trouble whatever exists among our employes, who are patiently awaiting the answer of the grievance committee. Yesterday I received a telegram from a member of the committee, saying he had seen the report, and denying any connection with it."

A SKY-SCRAPER.

William Moellering Will Erect a Seven Story Building.

At the north-west corner of Calhoun and Brackenridge streets lies a piece of property, 66x150 feet, which was recently purchased of the Fleming estate by William Moellering, the well known brick manufacturer and contractor. If present plans are executed a seven story building will be erected on the ground by the owner, which will be a monument of architecture that will excel in point of beauty and solidity any business block in the city. It is at present calculated to adapt the building to a wholesale house of some kind with office rooms on several of the upper floors. The contemplated building will probably be commenced the coming spring.

A social hop given by the M. F. P. club at G. A. R. hall, 80 Calhoun street, last evening, was largely attended. The dance program consisted of twenty-four numbers. Conley and Casso furnished music. Everything passed off pleasantly and much credit is due the following managers: Arrangement committee, L. Altevogt, Ed. C. Close and Fred Blakie; floor managers, Ed. C. Close, Louis Altevogt, Henry McNutt, Fred Blakie and Emil Stauffer.

Mr. and Mrs. John P. Ohneck, of 58 West Williams street, were honored with a party Wednesday evening at their pleasant home. Card playing and other diversions made the time pass enjoyably. Supper was served. Among those present were: Misses Kitty, Emma and Clara Bowers, Tracy Hudson, Mary Clark. Messrs. George Laible, Joe Kincaide, John Gibson, John Ohneck, Jacob Bowers, Walter Thompson and Joseph Jackson.

At Huntertown, on Wednesday, Wm. Runyan and John Thompson were examining a revolver, and, as usual, none of them knew it was loaded. Runyan was handling the pistol, and pulled the trigger, sending a bullet into Thompson's brain. The man lies unconscious, and the doctors have no hopes of his recovery. Runyan and his victim were good friends, and he is greatly shocked at his awful mistake.

THE PICTURES

Of Two of Allen County's Representatives in the Legislature.

The biographies of one hundred members of the Indiana legislature are published in yesterday's Indianapolis News and among them are the following of Hon. W. S. Oppenheim and Hon. J. D. Morgan, of this county:

W. S. Oppenheim, democratic representative from Huntington and Allen counties, was born at Bluffton, Ind., June 10, 1857. He attended the state university at Bloomington from 1873 to 1875, and Cornell University, at Ithica, N. Y., from 1875 to 1877. He came to Fort Wayne in the last named year, and has since then practiced law there, now being the junior partner of the firm of Colerick & Oppenheim. This is his second term in the legislature.

J. D. Morgan, state senator from Allen county, was born in VanBuren county, Tennessee, October 21, 1857. He was raised on a farm and educated in the common schools, with the exception of two terms in the Burritt college. He studied medicine under his father, Dr. J. C. Morgan, and attended lectures at and graduated from the Eclectic Medical college of Georgia in 1878. He came to Allen county in 1880, where he has since resided and is practicing his profession.

It is said that a great many Englishmen are visiting this country this season. I asked Jinks what they came for. He said he supposed "to marry soft-pated millionaire women, to talk the fellows out of their money, who want to be fooled and to lay in a supply of Dr. Bull's Cough Syrup."

How to Break Up a Severe Cold.
From the Virginia City, Mont., Madisonian.

When we find a medicine we know to possess genuine merit, we consider it a duty, and we take pleasure in telling the public what it is. Such a medicine we found Chamberlain's Cough Remedy. By the use of this syrup we have relieved, in a few hours, severe colds, and in the course of two or three days, entirely broken them up as has several of our friends to whom we have recommended it. It is all it is represented to be by the manufacturers. If you have a cough and want to stop it, Chamberlain's Cough Remedy will do the work. For sale by druggists.

Terre Haute is reveling in an epidemic of measles.

"Mrs. Winslow's Soothing Syrup" has been used over fifty years by millions of mothers for their children while teething, with perfect success. It soothes the child, softens the gums, allays pain, cures wind colic, regulates the bowels and is the best remedy for diarrhoea, whether arising from teething or other causes. For sale by druggists in every part of the world. Be sure and ask for Mrs. Winslow's Soothing Syrup. 25c. a bottle. an27-1y

THE LATEST DISCOVERY.

What the Greatest of All Modern Scientists Has to Say upon the Most Important of All Subjects.

Professor Koch, the great German physician who discovered the microbes which cause cholera, claims to have discovered a way of curing consumption, by vaccination. As more than half of all the deaths which occur every year are caused by consumption, if Dr. Koch's claim is true, it is the greatest discovery of the nineteenth century. But there seems to be some doubt as to whether it can be made practicable in all cases, while in every case it is certain to be a very expensive cure and one that can only be indulged in by the very wealthiest.

In the course of his remarks upon the subject, however, Professor Koch makes a most wonderful statement, which is as follows: "Alcohol is a food in consumption." He does not say that it is a temporary aid, but an absolute food, sustaining the life, building up the strength, and restoring the health. This is a most important statement and proves beyond question the great value of alcohol in the treatment of disease. It should be remembered, however, that alcohol is never taken in its natural form and that whiskey is the finest manner in which alcohol is ever combined. Even then, it must be pure beyond question, or it injures instead of aids. It is the possession of this quality of purity and its medical power, which has made Duffy's Pure Malt Whiskey so immeasurably superior to any other known whiskey in the world. It has saved the lives of many men and women who were on the downward road to consumption, and it will check the first stages of consumption or prevent pneumonia in every case. Great care should be exercised to secure only the genuine and no dealer, however, unscrupulous, should be allowed to substitute inferior and perhaps injurious whiskey.

COFFEE, COFFEE—Green and Roasted Java, Mocha and Rio.

The Coffee market is still held firmly by the speculating combination who has controlled it the last two years, and since our last circular there has been little change in prices, yet a large decline is looked for. In consequence of large receipts of Coffee at Rio and Santos. At present we have reduced the price on Rio one cent per pound.

Best Rio Coffee, 22c. lb. Roasted Rio, 25c. lb.
Old Govt. Java, 28c. lb. Roasted Java, 33c. lb.
Roasted Mocha, 35c. lb. Sampson Coffee in 1lb Packages, 26c.
Levering's Coffee, 26c. lb.

The Tea market all grades of Teas, both Chinese and Japanese remain at former prices, but they are extremely low when the high price of Coffee is considered, and it is safe to say the high price of coffee has induced a large consumption of Tea, as the price of a pound of 20c. Tea is no more than a pound of coffee and it will go twice as far. We sell a most excellent Tea at 20c. lb. and the very best at 50c. lb. Our motto in Teas is purchasing in large quantities from first hands and sell direct to our customers, thereby saving them the profits of the Jobber, Speculator and Wholesale Dealers, which is at least 15c. The Boston Store.

We have made some very large contracts with Eastern Importers and Manufacturers, for the Spring of 1891.

We have secured the exclusive sale, in this city, of some of the Choicest Woolen and Wash Dress Goods Fabrics that will be shown by any house in the state.

In order to obtain these advantages we had to make very large purchases, and of course obtained our goods at the lowest prices, consequently we will be able to sell at the lowest prices, thus giving our customers the benefit.

The annual inventory of stock being over, we will open up and place on sale to-morrow (Tuesday) morning the first installment of our New goods, comprising White Goods and Embroideries, Black Lawns in Stripes, Plaids, Hemstitched and plain.

Dress Ginghams and Zephyrs in Great variety and excellent designs. Challies, Pine Apple Suitings and Satteens. Woolen Plaids for Spring. Serges and Henriettas, Cashmeres and Flannels, and lots of other desirable Dress Fabrics in Spring Shades.

Our exclusive designs in Wash Dress Goods will be specially attractive and cheap.

New Goods will be shown in every department this week, and our rapidly increasing business warrants the assertion, that we will be able to show New Goods oftener and in greater variety than any other house in the city.
